Hi Mary

Please find our testimonial below.

'As a not-for-profit membership association with a relatively convoluted scope, developing a new website and CMS seemed a daunting and unachievable project.

GeekIT provided us with one online solution – a fabulous website and tailored back-end that surpasses our current needs and will easily grow as we grow.

Their service and delivery from start to finish was exemplary and the whole process was seamless, inclusive and, dare I say, highly enjoyable.

What a pleasure it has been working with the GeekIT team.'

Kind regards
